Apprenticeship/ Traineeships

APPRENTICESHIP/TRAINEE SHIPS

SEE Civil supports employees continuing their development and gaining qualifications in the construction industry. We offer our apprentices the opportunity to take on the challenge of our industry with the support and knowledge of our long term employees to teach and guide them.

Areas we focus on include the Heavy Duty Plant Mechanic, Metal Fabrication and Auto Electrical

Our diverse plant range enables us to match the most suitable equipment to meet the needs of your job.

PLANT & EQUIPMENT

Our Fleet

OUR FLEET

The pro-active approach taken by our highly skilled in-house maintenance team ensures equipment availability, guaranteeing the efficient delivery of our projects.

Our machines are fitted with the latest machine control and guidance systems that maximise machine accuracy and productivity, reducing the overall project costs for our clients.

Our modern equipment is compliant to all relevant OH&S legislative requirements with regards to ROPS, hose burst protection and quick hitch design. Equipment is checked daily prior to use, ensuring compliance and safety.

Plant & Equipment

With our significant investment in plant and equipment we are fully resourced to meet the needs of our clients across a range of industries. Our operators are fully trained in the safe operation of our equipment, with only the most proficient personnel completing final trim works on projects

OUR VISION

We have grown to be a leader in our field because we build and nurture strong client relationships, we rise to any challenge and we value innovation and resourcefulness.

We are committed to delivering a superior quality product in the shortest possible time frame maximising value for our clients

QUARRY INNOVATIONS

HIGH CAPACITY CRUSHING AND SCREENING

QUARRY SOLUTIONS

ON SITE SERVICE

Operating in the extractive industry we can conduct all facets of fixed quarry and mobile resource recovery works including crushing, screening, load and haul operations, drilling and blasting.

The company owns an extensive fleet of modern plant and equipment including excavators, wheel loaders, jaw crushers, cone crushers, vertical and horizontal shaft impactors, screens, reclaimers and one of the world's largest mobile trommel.

All this equipment is backed by highly skilled, experienced operators and service personnel that ensure maximum production output reaching in excess of 1500 tonnes per hour.

We have the capability to customise a solution to our client needs. Our solutions ensure that excavated materials can be crushed and screened on site to produce all drainage, subgrade, road base materials, aggregates, gabion rock, and select fill required to meet engineered specifications. Quarry Solutions management team are highly committed to safety and environmental protection, regularly undertaking internal audits to ensure policies and procedures are followed by all staff to the benefit of us and our clients.

OUR COMMITMENT TO SAFETY

We take safety very seriously and are constantly improving our policies and procedures to ensure a safe work environment.

We employ safety officers to ensure that all policies and procedures are adhered to and that our zero harm targets will be met.

Safety is our first priority at every stage throughout our projects from the design and planning stages through to completion.

We have achieved the Federal Safety Accreditation under the Australian Government Building and Construction OHS Accreditation Scheme.

OUR TARGET IS ZERO HARM

At every level our workforce is making zero harm safety our main objective. Our commitment is to provide a safe work environment for our employees and for everyone who visits our work sites.

Our senior management team have a commitment to ensuring that our employees, the public and the environment are safe at all times. Our ultimate goal is to reach zero harm in our workplace

Iron Ore Mining

At Aman & Ehsan General Trading L.L.C, our mining operations harness the potential of vast reserves of high-grade iron ore. With decades of experience, we employ advanced techniques and cutting-edge machinery to extract iron ore efficiently and responsibly.

Our team of seasoned professionals ensures that every step of the mining process is optimized for safety, sustainability, and productivity. **Key Features of Our Mining Operations:**
Extensive Reserves: Access to rich, high-grade iron ore deposits.
Advanced Technology: Deployment of modern equipment for precise and efficient mining.
Sustainable Practices: Commitment to minimizing environmental impact through eco-friendly mining techniques and land restoration initiatives.

Iron Ore Processing

Our expertise extends beyond mining to the meticulous processing of raw iron ore into superior-grade products. At Aman & Ehsan General Trading L.L.C, we leverage state-of-the-art processing facilities to deliver iron ore products that meet the most stringent industry standards.

Our processing techniques focus on maximizing yield while minimizing waste, ensuring both efficiency and environmental responsibility. Whether it's for construction, manufacturing, or specialized industrial applications, our refined iron products are tailored to meet diverse customer needs.

Key Highlights of Our Processing

Operations: Precision Refinement: Utilizing advanced methods to ensure consistency and quality.
Waste Reduction: Emphasizing efficiency and sustainability in all processes.
Quality Assurance: Rigorous testing to guarantee compliance with global standards.
Partner with us for a seamless supply of high-quality iron ore solutions that power industries and drive growth worldwide.
